

Scope of Work (SOW) Document

Saraswat Bank

Project Overview

This project aims to enhance the digital banking infrastructure of Saraswat Bank by implementing modern software solutions and improving customer experience.

Objectives

1. Upgrade existing banking systems.
2. Improve operational efficiency.
3. Enhance customer engagement through digital channels.

Scope of Services

The services include software development, system integration, testing, deployment, and post-deployment support.

Deliverables

1. Customized banking software.
2. Integration with existing systems.
3. User training and documentation.
4. Technical support post-deployment.

Timeline

The project is expected to be completed within 6 months from the start date, with key milestones at each phase of development.

Roles and Responsibilities

The vendor will be responsible for development, testing, and deployment. Saraswat Bank will

provide necessary access and support for integration.

Terms & Conditions

All deliverables must meet the agreed specifications. Payment will be made in phases upon successful completion of milestones. Confidentiality and data protection must be ensured.
